

April 2014 Newsletter

Dear fellow South Bay AMWA members,

Thank you for joining us with our Neurology colleagues about Botox and Migraines. We had 45 people join us at Viva's. Everyone had the opportunity to introduce themselves. We learned that Botox therapy is injected for Migraine treatment every 12 weeks. After 2 treatments, Botox was proven to reduce headache days each month vs. placebo.

Thank you for joining us!

Warmly,

Gloria Wu, MD

President, South Bay AMWA
