

April 2015

Dear South Bay AMWA members,

Happy Spring!

We had 50 people in attendance for the lecture in April 13, 2015 on urinary incontinence with Dr. Peter Castillo. It was held at the Plumed Horse. The meal was outstanding. We learned that there are minimal sutures to fix a prolapsed bladder. In addition, there is newer testing for postmenopausal urinary incontinence.

On May 13, 2015, our own SB AMWA member, Dr. Maia Chakerian spoke about Athena Health (EHR system) and how her collectibles increased to 98% with minimal time. The EHR software allows you to bill while you are coding. Dr. Chakerian is a user of Athena Health and clearly loves their software. The dinner was held at the Plumed Horse with attendance of 40 people.

On June 10, 2015, we heard about Tevapharm on the topic of asthma. It was held at the Plumed Horse to a sold out audience of 35. We all had the opportunity to try out the inhaler. Dr. Goldsobel was a lively and energetic speaker.

Thank you for your membership, friendship, and support.

Warmest regards,

Gloria Wu MD

President  
South Bay AMWA
